

## Supply List for Bargello Table Runner

Fabric requirements:

9 fabrics – 2 strips from each 2 1/2" wide cut WOF. You might consider:

3 fabrics in a variety of shades from one color family

1 bold fabric in a contrasting color that will make the project pop

5 fabrics for background (you can use the same background fabric more than once)

This is a learning project, so consider going to your stash and choosing fabrics that you have. See below for selecting fabric. Choose fabrics that read solid.

### How to Select Fabric for a Bargello Quilt

Bargellos are made from a variety of cotton fabrics and/or batiks. However, there is a major rule of thumb you need to consider first. Bargellos are not friendly with fabrics that have a large print within them. You'll need to select a fabric that will look identical cutting into 1 1/2" squares. Taking this into account will drastically help make your quilt's movement more fluid. Also, consider staying away from prints that tend to have a lot of white in them. This is because white will pop out rather than blend with your quilt's movement.

Bargellos look great with fabrics that have dots, swirls, flowers, nature themes, geometric themes, crackles/stones, grunge, texture, batiks, and even solids. Just keep the rule of thumb in mind.

Most Bargellos use monochromatic fabrics that range from light to dark.

Cutting mat

Rotary cutter

Ruler

Seam ripper

Small iron (if you have it). If not, you can finger press or use the irons in the work room.

Sewing machine and the usual sewing supplies

The pattern we will be using is one that is free from Pinterest.
